

The logo on this page was read from a PDF file.

The logo is the content of the first page of `data/testPDFs/PDFjetLogo.pdf`, drawn here at half its size with `page.drawContents`. It stays sharp at any zoom, because it is drawn as vector graphics and not as an image.

The maple leaf below is a Path with curves, and the QR code holds the address of the PDFjet web site.

A Path with curves
